Description

Open gvSIG
Click Preferences
Select [+] in General preferences
Click [+] in Extensions
Select an extension (org.gvsig.selectiontools.app.extension.SelectByPolylineExtension)
Enable extension
Click ok
Close gvSIG
Open gvSIG
The program is blocked in the first progress window and it can not open it.

Caso similar al bug: <https://devel.gvsig.org/redmine/issues/1056>

Yo creo que se trata de un mal uso por parte del usuario (similar a si borra una carpeta que no debe).
Asigno a Joaquín para ver si lo considera igual.
