**Description**

1.- Open gvSIG  
2.-Select table in project manager  
3.-Click New table--> geodata/tables/concejos.navarra.dbf  
4.- Click in menu Table and select 'Start editing'  
5.- Click in menu Table you can see that appears the option, 'Start editing', when should appears the option, 'Stop editing'. It's just the options menu, because really if you click start editing and goes to the Table for changing it, editing works well

-----

1.- Abrir gvSIG  
2.- Seleccionar la opción de Tabla en el Gestor de Proyectos  
3.- Abrir una tabla nueva (geodata/tables/concejos.navarra.dbf )  
4.- Seleccionar en el menú Tabla la opción 'Iniciar Edición'  
5.- Volver a seleccionar el menú Tabla, aparece la opción 'Iniciar Edición', cuando debería aparecer la opción 'Finalizar Edición'. Es sólo el menú de opciones, porque realmente si inicias la edición con 'Iniciar Edición' y te diriges a la tabla para cambiarla, la edición funciona.

You can test it when next build is available. I am setting 2053 as the target-version.
