This is very important as most of the current CSW servers use this version.

Note that I have a patch to support CSW 2.0.2 in gvSIG 1.9 version. I will create a separate feature request, as this one is targeted for 2.0 version, but I assume the patch will be valid or at least useful for 2.0.

I have created 2 tickets with the patches:
https://devel.gvsig.org/redmine/issues/1222
https://devel.gvsig.org/redmine/issues/1223

Note that they are for gvSIG 1.12 version, not for 1.9 as stated on my previous comment.
