Description

1. Launch gvSIG.
2. Open a view.
3. Load the Spanish Catastro WMS layer (<http://ovc.catastro.meh.es/Cartografia/WMS/ServidorWMS.aspx>)
4. The legend should be shown under the name of the layer in the ToC, but it isn't.

With other WMS works fine (e.g. <http://inspire.cop.gva.es/mapserver/wms>)
