Description

After press *Next* on create plugging wizard, if you go back with the *Previous* button, the wizard disappears when try again.

Steps to reproduce it:

1. Open wizard and fill the form. (see step1.png snapshot)
2. Press *Next*. Appears creation info overview (see step2.png)
3. Press *Previous*. First wizard step is shown again (see step3.png)
4. Press *Next*. Wizard disappears an log shows this message (see step4.png)

mkproject-prompt-basic-data:

mkproject-fixnames:

```
[echo] selected.template = "landregistryviewer"
```

mkproject-confirm:

mkproject-prompt-basic-data:

mkproject-fixnames:

fail:

```
[echo] Only one template can be selected
```
