Description

ESP: No se filtran tipos de fichero no válidos al cargar tablas

Abrir gvSIG

Elegir Tabla (en Gestor de proyecto)

Nuevo

Añadir

Puede elegir archivos de geometrías (SHP, DXF, DGN...) y no debería poder.

ENG: Invalid file types when loading tables

Open gvSIG

Choose Table (in Project manager)

New

Add

I can choose geometry files (SHP, DXF, DGN...) and I shouldn't.

If the params are unable to fix themselves (using the validate() method) then they are rejected. For example, the SHP parameters can be valid if they provide a default value for CRS in their own description.

File types that cannot be added as tables will be shown in a dialog.

This bug is the same as #850 (closed)
