| gvSIG desktop 1 - gvSIG add-on requests #1548
Add new version of extGeoprocessing to add-ons repository

01/10/2013 08:00 PM - Francisco Puga

Status:	New		**Start date:**	01/10/2013
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:				
Add-on name:	Geoprocess: base support (org.gvsig.geoprocess.app.mainplugin)	**Add-on code:**	com.iver.cit.gvsig.geoprocess	
Add-on operation requested:	Add to add-ons repository			

Description

There are some bug fixes on the extgeoprocessing extensions of gvSIG 1.x:

1. https://devel.gvsig.org/redmine/issues/1530
2. https://devel.gvsig.org/redmine/issues/1531
3. https://devel.gvsig.org/redmine/issues/1533
4. https://devel.gvsig.org/redmine/issues/1534
5. https://devel.gvsig.org/redmine/issues/1535

Maybe an update of the plugin can be uploaded. I attach the gvspkg to this issue.

I would appreciate if you can provide some information about the testing process, specially regarding:

- Confirmation/validation of bugfixes

- Installation test

Thanks,

Manuel.

#2 - 01/16/2013 11:02 AM - Francisco Puga

I only test that the issues reported in the bugs were solved. There are son threads about this in the devel mailing list.

#3 - 01/28/2013 01:25 PM - Antonio Falciano

The attached gvspkg works fine for me and solves all the issues related to the schema of geoprocesses output layers. Thanks a lot for your attention.

Cheers,

Antonio
