Description

I don't think it makes sense to have this button in the layout tool bar.

History

#1 - 01/13/2014 01:16 PM - Álvaro Anguix

- Assignee set to Juan Lucas Domínguez

#2 - 01/15/2014 12:25 PM - Juan Lucas Domínguez

- Category changed from Document layout to Geoprocess

- Assignee changed from Juan Lucas Domínguez to Ignacio Brodín

This happens because the Geoprocess extension always shows the button:

<https://devel.gvsig.org/redmine/projects/gvsig-geoprocess/repository/entry/org.gvsig.geoprocess/trunk/org.gvsig.geoprocess/org.gvsig.geoprocess.app/org.gvsig.geoprocess.app.mainplugin/src/main/java/org/gvsig/geoprocess/extension/GeoprocessExtension.java>

Suggestion: get the current project and enable the buttons/menus if there is at least one view in the project (active or not).

I am reassigning this ticket to Nacho.
