Has patch: No	Hito:
Add-on name: Unknown	

Description

1. Load a vector polygon layer.
2. Start editing.
3. Add a new column (type=string length=100).
4. Choose a polygon and fill in the cell of the new column with a path to a raster file.
5. Stop editing saving changes.
6. Configure the layer hyperlink (right button + Properties > Hyperlink tab) for the new column/field ("load raster" type).
7. Select the hyperlink tool from the toolbar.
8. Click on the polygon that has the path.
9. A new layer should have been added to the ToC but, instead, nothing happens.

Tested with tif and jpg files.

History

#1 - 12/17/2013 09:56 AM - Juan Lucas Domínguez

While fixing another bug, I have removed the functionality to add new layers with this tool, because it introduces a dependency with raster plugins.

You can only use paths to images, HTML (or websites) and PDF files.

#2 - 01/13/2014 12:45 PM - Álvaro Anguix

¿Se ha fijado el otro bug que comentabas? En su caso, ¿Se puede abordar ya este?

#3 - 01/13/2014 12:52 PM - Juan Lucas Domínguez

Sí, ya se podría abordar.

#4 - 01/13/2014 01:20 PM - Álvaro Anguix

- Assignee set to Juan Lucas Domínguez

#5 - 01/16/2014 01:24 PM - Álvaro Anguix

- Target version set to 2.1.0-2219-testing

#6 - 02/17/2014 08:40 PM - Joaquín del Cerro Murciano

- Target version changed from 2.1.0-2219-testing to 2.1.0-2221-testing

#7 - 02/20/2014 11:31 AM - Álvaro Anguix

- Assignee deleted (Juan Lucas Domínguez)

- Target version changed from 2.1.0-2221-testing to 2.2.0-2311-rc2

#8 - 01/28/2015 12:05 PM - Álvaro Anguix

- Target version deleted (2.2.0-2311-rc2)

#9 - 05/29/2015 01:40 PM - Álvaro Anguix

- Status changed from New to Invalid

Esta funcionalidad se quito, por lo que el ticket con un bug no tiene sentido. Lo que habrá que hacer en el futuro es incluir la funcionalidad.
