## extHyperlink window size restrictions

08/09/2013 02:12 PM - Jorge López Fernández

<b>Status:</b> New	<b>% Done:</b> 0%
<b>Priority:</b> Low	
<b>Assignee:</b>	
<b>Category:</b>	
<b>Target version:</b>	
<b>gvSIG version:</b> 1.12.0	<b>Add-on version:</b>
<b>Keywords:</b>	<b>Add-on resolve version:</b>
<b>Has patch:</b> No	<b>Add-on resolve build:</b>
<b>Add-on name:</b> Tools: Hyperlink (org.gvsig.hyperlink.app.extension)	
<b>Description</b>	
<p>The window opened by the Hyperlink extension with the linked content has a really narrow margin for its dimensions: a height between 450 and 650, and width between 450 and 800. When the displayed content hasn't a size between those, the window adopts the nearest one.</p> <p>Unless there was some specific reason for those small numbers, I think there is a lot of margin for allowing both bigger and smaller window dimensions, even if the header cannot be read when opened.</p> <p>I suggest something like 50&lt;height&lt;800 &amp; 100&lt;width&lt;1200</p>
