Description

Hello,

I have a project made in gvsig version 1.12.0 final.

How can I open or import this project using Gvsig version 2.0.0-2066 final with java version : 1.6.0_26

Thanks for your explanation

regards

Hi Loïc,

Unfortunately at the moment it is no possible to load nor import a gvp file with gvSIG 2.0. It is expected to provide an import tool but I can not say when it will be available.

We know it is a very important feature but due to the totally different structure of the 2.0 version project file, the solution is not easy.

Sorry for the inconvenience.

Best regards,

Manuel.
