Add-on name:	Unknown		

Description

- We load a layer in a view (for example esp_provincias in EPSG23030, that is available from http://downloads.gvsig.org/download/testing/test_plan/gvsig_1x/data/vector/shp/espana/), and we access to the Gazetteer service.
- We connect to <http://inspire.cop.gva.es:80/deegree/wfs>.
- We look for "Burriana" and at the results we select "Port de Burriana, el".

It shows the text, but the toponym point is not shown. It doesn't make a zoom to the toponym, only it moves the view to it. If we make a zoom to the toponym, the text disappears.

- *Has patch changed from No to Yes*
- *File gazetteer.patch added*

Jose, te paso este bug. Por lo que he visto, el zoom lo hace correctamente.

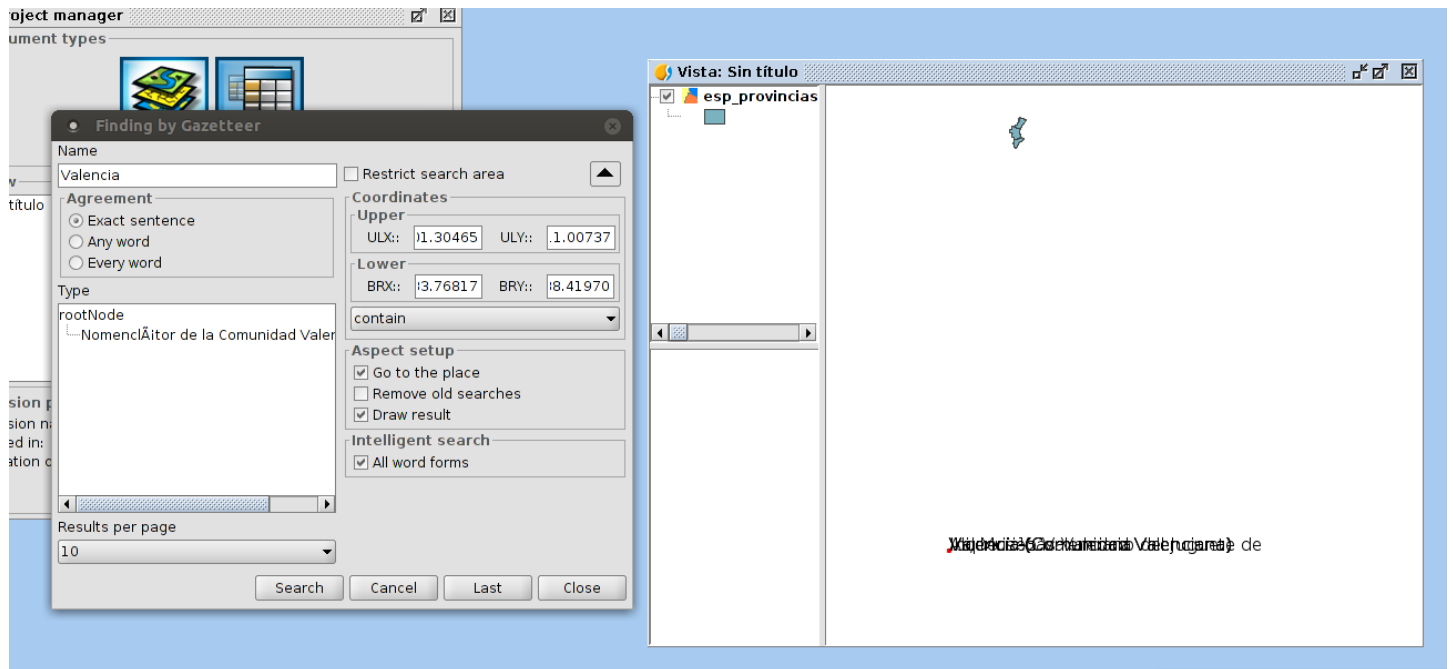

Adjunto un parche para que dibuje el punto junto con el texto. No lo subo porque no tengo permisos, la dirección del SVN es:

<https://devel.gvsig.org/svn/gvsig-gazetteer/org.gvsig.gazetteer/trunk/org.gvsig.gazetteer>

Faltaría que no borrarse los puntos anteriores cuando así lo marque el usuario. Diría que es un error de la GraphicsLayer, ya que los puntos se están añadiendo correctamente desde la extensión de Gazetteer y no se borran cuando así lo pide el usuario.

#8 - 05/14/2015 10:11 AM - José Badía

It seems the insertion is correct but, after any action on the map, the text is "relocated" (Maybe it's a change in the GraphicLayer's SRS or point coordinates).

#9 - 05/14/2015 10:11 AM - José Badía

- File Pantalla2.png added

#10 - 05/14/2015 10:51 AM - José Badía

- Status changed from In progress to Fixed

#11 - 05/15/2015 09:05 AM - Joaquín del Cerro Murciano

- Target version changed from 2.2.0-2311-rc2 to 2.2.0-2310

#12 - 05/20/2015 09:25 AM - Álvaro Anguix

- Status changed from Fixed to New

- File gvSIG.log added

Ahora da error y no funciona al seleccionar uno de los resultados y darle a "Localizar".

Adjunto Log.
