Parece que en alguna parte te has merendado una "h" en el nombre del paquete, dice:

```
| org.gvsig.dyschromatopsia.app.extension
```

Y en todos sitio **dysc...** lo estabas poniendo con **h**.

Me he descargado el paquete de esa URL y al intentar instalarlo por el admin. de complementos por fichero, me los muestra pero no me deja instalarlos.

Adjunto captura de lo que muestra el admin. de complementos.
