Operative System:		Add-on resolve build:	
Keywords:	crs, srs, transformation	Proyecto:	
Has patch:		Hito:	
Add-on name:	Unknown		

Description

Steps in order to reproduce this bug:

1. create and open a View in EPSG:4326;
2. add a shp layer defined in a CRS with a different datum (e.g. EPSG:23032);
3. click on Properties button in Add layer dialog and set the layer CRS in the Advanced tab;
4. CRS name is substituted by transformation one in the "Recent" type of CRSs.

See the screenshot in attachment.

- Status changed from New to Invalid

This is not a bug, but only a cosmetic defect (because CRS and transformation names are mixed together). So I set the ticket as Invalid.
