gvSIG version:	2.1.0	Add-on resolve version:	
Keywords:	3857, 3785, 900913	Add-on resolve build:	
Has patch:		Proyecto:	
Add-on name:	Unknown	Hito:	
Add-on version:			
Description			
<p>After the update of the EPSG Registry (#2306), also that of libjni-proj4 (crsjniproj) with a more recent version of Proj.4 library is strongly needed.</p> <p>The main advantage would be to support the conversion of EPSG:3857 to WGS84 (using the spherical formulas and not the ellipsoidal ones, as it happens actually) and consequently all the possible transformations from/to Web Mercator. Then OSM and WMTS layers would take a great benefit of it.</p> <p>Related issues: #2738, #2739 and #2805</p>
