Description

"General > Icon theme" preference page seems broken.

For instance, it's not possible to export the icon theme.

History

#1 - 03/04/2015 11:12 AM - Álvaro Anguix

- Status changed from New to Closed

It works OK.

"Export default icon theme" exports icon theme to folder: gvSIG/icon-theme/default

Now gvSIG has only an icon theme but selection of icon themes is prepared to the possibility to have several icon themes.
