Description

If I use the "Create random vector layer" geoprocess, an "Error initializing the graphics layer" occurs:

```
ERROR Thread-12 org.gvsig.fmap.mapcontext.impl.DefaultMapContextManager - Error initializing the graphics layer
org.gvsig.fmap.dal.exception.InitializeException: Exception intializing 'Memory'.
    at org.gvsig.fmap.dal.impl.DefaultDataManager.createProvider(DefaultDataManager.java:749)
    at org.gvsig.fmap.dal.impl.DefaultDataManager.initalizeDataStore(DefaultDataManager.java:710)

History

#1 - 10/27/2014 05:11 AM - Álvaro Anguix

- Status changed from New to Fixed

In 2254 it's ok.

#2 - 10/27/2014 05:51 AM - Antonio Falciano

- Status changed from Fixed to Closed

Hi Alvaro, you're right. The issue is disappeared in build 2254, so we can close the ticket.

The other issue of Geoprocesses are fixed (even if they can't be tested in build 2254), so we'll verify them in the next builds.

#3 - 10/27/2014 12:15 PM - Joaquín del Cerro Murciano

- Target version changed from 2.1.0-2259-rc3 to 2.1.0-2254-testing

#4 - 10/27/2014 12:28 PM - Joaquín del Cerro Murciano

The other issue of Geoprocesses are fixed (even if they can't be tested in build 2254), so we'll verify them in the next builds.*

Hola Antonio,

has empezado a probar el build 2254 antes que yo... :)

Ha habido un error en el script que genera la distribución y los paquetes de geoprocetos y jcrs se han incluido con versiones antiguas. He regenerado la distribución de nuevo y ya debería estar la 2254 con la última versión de los paquetes de geoprocetos y jcrs.

#5 - 10/27/2014 12:32 PM - Antonio Falciano

Hi Joaquín,

no problem! So I download the regenerated version, install it and let you know if works fine.
