Add-on name: Unknown	

Description

Hay determinados servicios WMS a los que gvSIG conecta o no dependiendo de la URL, cuando debería conectar (al menos otros SIG lo hacen) en todos los casos:

Ejemplo:

http://cartoweb.cma.gva.es/arcgis/services/ordenacion_territorial/MapServer/WMServer?request=GetCapabilities&service=WMS

Con esa URL da error de conexión.

Sin embargo se conecta tanto con:

http://cartoweb.cma.gva.es/arcgis/services/ordenacion_territorial/MapServer/WMServer?

como con:

http://cartoweb.cma.gva.es/arcgis/services/ordenacion_territorial/MapServer/WMServer?request=GetCapabilities

Associated revisions

Revision 4173 - 11/12/2015 11:55 AM - José Badía

fixes #2963

Evita que se repitan los parametros REQUEST=GetCapabilities y SERVICE=WMS en la url
