

## Application: gvSIG desktop - gvSIG bugs #3017

### Errors in initialization of application

11/21/2014 11:10 AM - Antonio Falciano

<b>Status:</b>	Closed	<b>% Done:</b>	0%
<b>Priority:</b>	Normal	<b>Spent time:</b>	0.00 hour
<b>Assignee:</b>	Joaquín del Cerro Murciano		
<b>Category:</b>	Application		
<b>Target version:</b>	2.1.0-2258-testing		
<b>Severity:</b>	Blocker	<b>Add-on version:</b>	
<b>gvSIG version:</b>	2.1.0	<b>Add-on build:</b>	
<b>gvSIG build:</b>	2255	<b>Add-on resolve version:</b>	
<b>Operative System:</b>	Windows	<b>Add-on resolve build:</b>	
<b>Keywords:</b>	initialization	<b>Proyecto:</b>	
<b>Has patch:</b>		<b>Hito:</b>	
<b>Add-on name:</b>	Unknown		
<b>Description</b>			
Errors in initialization of application occur after a fresh install on Windows 7 64bit. See the log in attachment. Then, I cannot execute gvSIG because of a JVM error, even if with elevated permission.			

### History

#### #1 - 11/21/2014 11:31 AM - Antonio Falciano

Further info: if I restart the os, then gvSIG is executed without errors. Instead, the first time there were the three classical red icons.

#### #2 - 11/23/2014 05:54 AM - Antonio Falciano

- Status changed from New to Closed

No initialization errors in build 2256, so I close the ticket.

Note: after the fix of #2830, the EPSG Registry for jCRS has to be installed in build 2256.

#### #3 - 11/24/2014 11:05 AM - Joaquín del Cerro Murciano

- Target version changed from 2.1.0-2259-rc3 to 2.1.0-2258-testing
