Description

Hacer que el plugin de org.gvsig.app se instale como un plugin mas en lugar de instalarse de base con el InstallJamer. En principio lo que instala el InstallJammer deberia reducirse solo a andami y org.gvsig.coreplugin

Plugins removed from the installjammer base installation:

- org.gvsig.app
- org.gvsig.i18n.extension
- org.gvsig.installer.app.extension
- org.gvsig.theme.baseicons

In other words, only *org.gvsig.coreplugin* has been left. This way the "online" version gets reduced from around 30Mb to around 12Mb.
