Keywords:	Proyecto:
Has patch: No	Hito:
Add-on name: Internationalization support (org.gvsig.i18n.extension)	

Description

Preparar para que andami tenga una carpeta i18n en la que meter las traducciones en lugar de residir estas en org.gvsig.app para que pueda inicializarlas antes de que se carguen los plugins.

Tambien habria que crear otra carpeta i18n en el home del usuarios en la carpeta gvSIG, y que andami al cargar las traducciones las busque primero en el home y luego en el directorio de la instalacion de gvSIG.

Esto esta relacionado con un bug en la instalacion del lenguaje Khmer.

Ademas habria que preparar el plugin de instalacion de nuevos idiomas para que los instale en \$HOME/gvSIG/i18n en lugar de org.gvsig.app.

Associated revisions

Revision 38093 - 04/10/2012 04:37 AM - Cesar Ordiñana

This fixes #306 by using two new folders for i18n resources: one into the gvSIG installation and another one in the user home gvSIG folder. This last one will be used to install new languages.

Revision 38094 - 04/10/2012 04:37 AM - Cesar Ordiñana

This fixes #306 by using two new folders for i18n resources: one into the gvSIG installation and another one in the user home gvSIG folder. This last one will be used to install new languages.

History

#1 - 04/02/2012 06:23 PM - Cesar Ordiñana

- Status changed from New to In progress
- Add-on name changed from Unknown to Internationalization support (org.gvsig.i18n.extension)

#2 - 04/10/2012 10:40 AM - Cesar Ordiñana

- Status changed from In progress to Fixed
- % Done changed from 0 to 100

Applied in changeset r38093.

#3 - 04/10/2012 10:43 AM - Cesar Ordiñana

As a reminder, from now on the installation of new languages will work as follows:

- New languages installed through the language preferences page will be stored in the \$USER_HOME/gvSIG/i18n folder.
- To add new languages by default to a gvSIG installation, it may be included into the **i18n** folder of the gvSIG installation.

#4 - 08/30/2012 02:11 PM - Joaquín del Cerro Murciano

- *Status changed from Fixed to Closed*
