No se puede testear, al dar a zoom previo salta un error y nunca llega a hacer zoom previo...por lo que tampoco hay zoom siguiente.

Lo reabro porque es muy probable que el error esté en esta nueva herramienta de zoom siguiente.

Thank you very much, Miguel. The "Next zoom" tool seems to work as expected in my case, i.e. only after the "Previous zoom" is used before and so one or more extents are memorized. Cheers.
