It's still not available in build 2307, so I reopen the ticket.

Hi Antonio, I have delete all gvSIG folders and I've install 2307 again...and it works.

Can you test it?

##### #8 - 04/29/2015 12:52 PM - Álvaro Anguix

...perhaps this is a problem related with your bug #2944 and deleted folders.  
For this, I recommend to test in a new installation without "old gvSIG folders"

Hi Alvaro,

it works fine after deleting the gvSIG folder. I reclose it.
