Description

Because 3D is coming and resizing several windows is time consuming, IMHO it would be nice to have a full support of windows management (sizing and placing) implementing in the Window menu tools like:

- distribute horizontally
- distribute vertically
- cascade (existing but not working, see #3444)
- mosaic (existing but not working, see #3444).

Related to #1427, #2343 and #3444.

History

#1 - 05/11/2015 08:29 PM - Antonio Falciano

- File ventana.png added

For instance, the above mentioned tools are implemented in Kosmo Desktop (see the screenshot in attachment) and I believe they could improve the user experience if associated with keyboard shortcuts.
