

Application: gvSIG desktop - gvSIG bugs #352

Addons that couldn't been installed appear as installed afterwards

02/21/2012 11:10 AM - Cesar Ordiñana

Status:	Closed	% Done:	0%
Priority:	Normal	Spent time:	0.00 hour
Assignee:	Juan Lucas Domínguez		
Category:	Installer		
Target version:	2.0.0-alpha6		
Severity:		Add-on version:	2.0.0-SNAPSHOT
gvSIG version:	2.0.0	Add-on build:	2045
gvSIG build:	2045	Add-on resolve version:	
Operative System:		Add-on resolve build:	
Keywords:		Proyecto:	
Has patch:	No	Hito:	
Add-on name:	Add-ons manager (org.gvsig.installer.app.extension)		
Description			
Steps to reproduce the error:			
- Open the addons installer.			
- Select the installation from URL.			
- Select an addon to install whose package won't be found. As of now, those packages are:			
- Add a table to the map			
- Filter a view by time			
- Scripting framework			
- In the installation process, the addons manager will complain the addon package could not be downloaded.			
- Reopen the addons manager. In the addons list the failed addon will show as installed.			

History

#1 - 05/10/2012 08:17 PM - Manuel Madrid

- Target version set to 2.0.0-rc1

#2 - 05/30/2012 02:30 PM - Joaquín del Cerro Murciano

- Target version changed from 2.0.0-rc1 to 2.0.0-devel-2050

#3 - 06/18/2012 04:30 PM - Joaquín del Cerro Murciano

- Assignee set to Juan Lucas Domínguez

- Target version changed from 2.0.0-devel-2050 to 2.0.0-alpha6

#4 - 06/19/2012 12:46 PM - Juan Lucas Domínguez

- Status changed from New to In progress

#5 - 06/19/2012 01:08 PM - Juan Lucas Domínguez

- Status changed from In progress to Fixed

gvsig-desktop:r38430

Wizard will not continue if there are download problems, so bad installation will not happen.

If another behavior is desired, go to "DownloadProgressWizard.java" (org.gvsig.installer.swing.impl) and change the main loop (UpdatePanel inner class, "run" method). The GUI is getting too sophisticated in my opinion.

Needs some more testing.

The gvsig download server is behaving strangely these days.

#6 - 07/12/2012 10:26 AM - María Maluenda

- Status changed from Fixed to Under review

I tested this ticket:

- 1.- Open Addon Manager in gvSIG build 2049
- 2.- Select URL option with <http://downloads.gvsig.org/download/gvsig-desktop>
- 3.- Click Next
- 4.- Select plugins:
 - Add a table to the map
 - Filter a view by time
 - Scripting framework
- 5.- Select start Download

The progress bar not advance (stopped in 'Time Filter on a View' 2/3) , the plugins are not downloaded.

- Status changed from Under review to New

#8 - 08/23/2012 01:59 PM - Juan Lucas Domínguez

- Status changed from New to Fixed

I think this bug is already fixed.

You can test it with 2051 (choose a couple plugins) and the download problems should not happen.

#9 - 08/28/2012 09:35 AM - María Maluenda

- Status changed from Fixed to Closed

In the gvSIG build 2051 the download problems not happen. But installing gvSIG build 2051 breaks when you close and reopened after installing gvSIG plugins in initial standard installation.

- Add a table to the map
- Filter a view by time
- Scripting framework
