Alvaro, I can't verify if the issue is solved in build 2830, because of #4602. So I'd reopen the ticket.

#9 - 08/11/2017 03:47 PM - Antonio Falciano

- Status changed from Closed to Invalid

Because the elevation field is one of the 3D properties, I set this ticket as Invalid and reopen #4344 (because 3D properties, like the elevation field, are not persistent).
