<b>Add-on name:</b> Unknown	

**Description**

The 'title' i18n string is used both in the "Geodata search" as:

```
title=Title
```

and the Dyschromatopsia plugin as:

```
title=Dyschromatopsia legend transformation
```

I suggest to change the i18n string in the second case in order to avoid the conflicting translation. For instance:

```
legend_transformation=Legend transformation
```
