Has patch:	No		
Description			
<p>Using 1.11.0, using the Geodata search to connect to an OGC:CSW 2.0.2, I am able to connect (I can see from my CSW server logs, and the response is parsed), however when attempting to search, clicking the search button has no effect.</p> <p>Sample URL for testing:</p> <p>http://aiolos.survey.ntua.gr/pycsw_dev/csw.py?service=CSW&#38;version=2.0.2&#38;request=GetCapabilities</p>			

History

#1 - 04/06/2012 09:28 PM - Manuel Madrid

- Status changed from New to Awaiting response

Please, can you give the steps to reproduce the error?

Thanks.

#2 - 04/10/2012 02:57 PM - Tom Kralidis

Steps:

- launch gvSIG 1.11.0 final (Build 1305) (Java 1.6.0_20)
- create new View
- update View properties * set Current projection: EPSG:4326 * click "OK"
- open new view * select view * click "OK"
- add layer * click Layer/Add Layer menu item * under tab "File", click "Add" * select file, click "Add" (I'm using Natural earth admin countries layer)
- click "Geodata search" icon
- Enter Address of catalogue server: * http://aiolos.survey.ntua.gr/pycsw_dev/csw.py
- protocol = CSW/ISO 19115
- click "Connect"
- gvSIG proceeds to next screen
- Services select box set to "Data"
- enter Title = "lor"
- Click "Search"

There is no effect when clicking this button.

#3 - 09/26/2012 02:17 PM - Manuel Madrid

- *gvSIG version changed from 2.0.0 to 1.11.0*

#4 - 09/26/2012 02:25 PM - Manuel Madrid

- *Status changed from Awaiting response to Closed*

gvSIG 1.11 doesn't support CSW 2.0.2. I'm closing this bug and opening a feature request for both 1.12 and 2.0 version.
