Description

WMS layers are not loaded on gvSIG 2.2 in Windows. We could connect but the layer wasn't loaded at the ToC. I attach log file.

At the same computer, when we loaded a jpg file it wasn't added at the "Add layer" window after selecting it at the folder.

History

#1 - 02/15/2016 02:33 PM - Álvaro Anguix

- Status changed from New to Closed

With build 2422 it works fine.
