Description

Al parecer con el cambio de instalador se han dejado de generar las portables, no tengo claro desde que build ya no se generan.

It seems that the portable distributions have not been generated in the last two builds (2437 and 2438).

Hi Antonio,

I have closed the ticket because the bug was fixed. In the last build we can't publish the portables (we are testing several things related with differences between Debian/Ubuntu pre-16.04 and 16.04 versions), but they're generated.

So I close the bug, because it's fixed.
