Description			
There's an issue when checking the shared library dependencies launching gvSIG in windows: the paths are splitted in two parts using the space as separator. I attach a patch that solves the issue.

Crei que ya habia aplicado esos cambios.

Ahora ya estan subidos.

Sin embargo, sigue persistiendo un error relacionado con el comando "cygcheck.exe", no se por que en windows-x64 no saca nada. Tendre que ver por que sucede o si hay alguna otra alternativa al comando cygcheck.
