gvSIG version:	2.3.0	Add-on resolve version:	
Keywords:		Add-on resolve build:	
Has patch:		Proyecto:	
Add-on name:	Unknown	Hito:	
Add-on version:			

Description

Función:

```
def getWindowOfView(self, viewdoc):  
    application = gvsig.ApplicationLocator.getManager()  
    projectManager = application.getProjectManager()  
    viewManager = projectManager.getDocumentManager(ViewManager.TYPENAME)  
    return viewManager.getMainWindow(self.viewdoc, None)
```

Usado en el ejemplo "coordenadas.py" de esta forma para añadir listeners de la Vista al script:

```
self.viewdoc = viewdoc  
self.mapControl = self.getWindowOfView(self.viewdoc).getMapControl()  
self.mapControl.addBehavior("CapturePoint", PointBehavior(self))  
self.mapControl.setTool("CapturePoint")
```

Propuesta: añadirla como método al documento Vista
