Description

The gvSIG portable is without a bundled JRE, so it's not a portable distribution yet. If Java is not installed, it can't be executed.

refs #4175, corregidos algunos errores en gvskg

Revision 42852 - 06/30/2016 01:57 PM - Joaquín del Cerro Murciano

refs #4175, coregidos errores en el arranque de la portable. Falla cuando hay espacios en el nombre de las carpetas de simbolos, y no reconoce la jre que lleva como plugin ya que el java no tenia permisos de ejecucion. Tambien se ha cambiado el orden por el que busca la jre para que busque en la carpeta de plugins antes que en home/gvsig.
