Description

When we reproject a layer in gvSIG 2.3.1 using a Ntv2 grid it doesn't work correctly, it's not applied.

History

#1 - 11/03/2016 04:43 PM - Antonio Falciano

- Target version set to 2.4.0-2850-final (rev. org.gvsig.desktop-2.0.220)
- Status changed from New to Invalid

Hi Mario,

unfortunately it's a well known issue! The coordinate transformations set by the user (3 or 7 parameters, NTV2 grid) when adding a layer to a view are not applied in gvSIG 2.3.x (#4069), because they're overridden by GDAL ones.
