Supongo que habra que actualizar los ficheros:

gvSIG-desktop-2.3.0-org.gvsig.gdal.app.mainplugin-1.11.0-1-testing-darwin_macos_10.11-x86_64-j1_8.*

Que hay en:

<http://downloads.gvsig.org/download/gvsig-desktop-testing/pool/org.gvsig.gdal.app.mainplugin/>

Descargarselos y crear nueva version de ellos quitando las librerias que toquen.

Probablemente crear la version 1.11.0-2 y cambiar la version de gvSIG a la 2.4.0.
