Description

I found that Addon Manager creates an undetermined background process which never ends.

To reproduce issuer follow this steps:

1. Open Addon Manager
2. Select *url* option
3. Select *Development project wizard*
4. Press *Next*
5. Press *start donwload*

After download finished a *Downloading...* process appears on status bar. This process still there after all installation process finished and Addon Manager is closed.

gvsig-desktop:r38431

Bad management of constructors caused creation of uncontrolled thread. Also some changes in connection stream read loop.

#5 - 06/19/2012 03:58 PM - Juan Lucas Domínguez

Bad management of constructors caused creation of uncontrolled progress bar embedded in status bar (not a thread).

- Status changed from Fixed to Under review

I tested this ticket:

1.- Open Addon Manager in gvSIG build 2049 (Linux)

2.- Select URL option with http://downloads.gvsig.org/download/gvsig-desktop

3.- Click Next

4.- Select plugin Development project wizard

5.- Select start Download

The progress bar not advance, the plugin does not download.

#8 - 08/23/2012 01:56 PM - Juan Lucas Domínguez

- Status changed from New to Fixed

I think this bug is already fixed.

You can test it with 2051 (for example the scripting plugin in the category Development)

#9 - 10/16/2012 12:28 PM - María Maluenda

- Status changed from Fixed to Closed

Closed with the gvSIG build 2056. The scripting plugin does not exist in the category Development.
