Description			
<p>The OGR tab functionalities seems to be very poor at the moment. It's only possible to "open" the layers (shp, gml, geojson, Spatialite, etc.), but not to "add" them to the view because of NullPointerExceptions that always occur independently by the the specific file format.</p> <p>Related to #4325, #4330, #4359 and #4533 (at least).</p>

- Status changed from New to Fixed

El error que causaba que no se pudiese añadir ninguna capa de OGR ya esta corregido.

Otra cosa son los problemas que puedan haber al cargar algunas capas o formatos.
