Description

spatial join between this to layers has no output (temporal or defined file)
(closest neighbor)

enlace espacial entre estas dos capas no arroja resultado (temporal o archivo definido)
(vesino más proximo)

History

#1 - 12/12/2018 02:59 PM - Mario Fevre

realized, it occurs because of duplicated field names. Should not be tricky to solve it.
one of the shapefiles had a layer DIST, witch matches with DIST field in result.

me dí cuenta que ocurre por tener nombres de capo duplicados. No debería ser difícil de resolver.
Una de las capas tenía un campo DIST que coincide con el campo DIST del resultado.
