History

#1 - 05/23/2012 12:18 AM - Joaquín del Cerro Murciano

- Assignee set to Juan Lucas Domínguez

Manuel, deja mucho que desear el ticket, no dice que hay que hacer para reproducirlo.
Con lo que dice, si Juan Lucas prueba la herramienta y le va cerrara el ticket.

#2 - 05/30/2012 02:03 PM - Joaquín del Cerro Murciano

- Target version set to 2.0.0-alpha6

#3 - 05/30/2012 04:35 PM - Juan Lucas Domínguez

- Status changed from New to Fixed

This bug does not happen in the current workspace (38367) . Like others, it must have been fixed in the last 2 or 3 builds. I have tested with polygons and lines.

#4 - 06/11/2012 01:04 PM - Joaquín del Cerro Murciano

- Target version changed from 2.0.0-alpha6 to 2.0.0-devel-2048

#5 - 08/30/2012 10:15 AM - María Maluenda

- Status changed from Fixed to Closed

- Target version changed from 2.0.0-devel-2048 to 2.0.0-rc1

Closed in the gvSIG build 2051 (you should situate just above the node or click outside the polygon, to split the geometry).

#6 - 08/30/2012 10:16 AM - María Maluenda

- *Target version changed from 2.0.0-rc1 to 2.0.0-devel-2052*
