

Application: gvSIG desktop - gvSIG feature requests #511

Improve the info given along the installation of an addon

04/09/2012 02:28 AM - Manuel Madrid

Status:	Closed	% Done:	0%
Priority:	Normal	Spent time:	0.00 hour
Assignee:	Juan Lucas Domínguez		
Category:	Installer		
Target version:	2.0.0-devel-2052		
gvSIG version:	2.0.0	Add-on resolve version:	
Keywords:		Add-on resolve build:	
Has patch:	No	Proyecto:	
Add-on name:	Unknown	Hito:	
Add-on version:			

Description

1. After the download is finished the text over the progress bar and the application status bar still say downloading... It should say "download finished" or something similar.
2. After clicking on "next" the text over the progress bar says "Installing..." but the addon is already installed. It should say "installed".
3. The application status bar text (animated progress bar included) saying "Downloading..." remains after finishing the installation.

History

#1 - 07/02/2012 08:53 PM - Manuel Madrid

- Target version set to 2.0.0-rc1

#2 - 08/22/2012 11:11 AM - Joaquín del Cerro Murciano

- Assignee set to Juan Lucas Domínguez

#3 - 08/24/2012 02:02 PM - Juan Lucas Domínguez

- Status changed from New to In progress

#4 - 08/24/2012 11:23 PM - Juan Lucas Domínguez

Notes:

Seems like the tools library must not depend on i18n, so TaskStatus must get translated strings in constructor. Solution: pass the string (translated) to be used when task ends ("Done", "Downloaded", etc)

#5 - 08/27/2012 04:12 PM - Juan Lucas Domínguez

- Status changed from In progress to Fixed

gvSIG-desktop:r38791

gvSIG-tools:r708

I have removed two GUI details:

- (1) Empty string will be used when progress ends instead of "Downloading..." or similar
- (2) 'uncompress' sub-task will not be added to status bar

These two details were not properly managed and fixing them would take some time, and are not important things at all, so I think it's better to solve it

in the simplest way.

In order to fix (1) perhaps it would be better to let tools depend on i18n (because tools includes GUI classes)

In order to fix (2) it's necessary to rethink how installLater works and what happens when there are exceptions.

#6 - 08/30/2012 11:09 AM - Juan Lucas Domínguez

gvsig-desktop:r38801

gvsig-tools:r709

Improved GUI and management of task status.

#7 - 08/30/2012 02:15 PM - Joaquín del Cerro Murciano

- *Target version changed from 2.0.0-rc1 to 2.0.0-devel-2052*

#8 - 02/26/2014 12:43 PM - Álvaro Anguix

- *Status changed from Fixed to Closed*
