Description

- Cargo la capa
- Hago una selección por el campo boro_name = "Queens"
- Exporto la selección y sigue todos los pasos y al final da error.
- Sin embargo, la capa la crea, pero el mensaje que sale da a entender que no (y es lo que pensará el usuario)

Añado la capa y los logs

Revision 45315 - 09/23/2020 10:09 AM - Francisco Díaz Carsí

refs #5419 Fixed the parseDecimal method in the DBF FieldFormatter so that it does not modify the scale if the requested one is greater than the one that already has the value.

Fixed the setForced method of DefaultFeature so that it admits a value with a scale less than or equal to that marked by the attribute descriptor.
