I'm afraid we can't control this characteristic depending the type of vectorial layer because Sextante does not distinguishes among different types of vectorial layers. I have added a label just next to the old one (only polygons). Sorry for the "ñapa"

- File *buffer_outside_linear_layer.png* added
- Status changed from *Fixed* to *Closed*

Appears a label added (only polygons). And if you apply,an error appears (attached image).
Closed in the gvSIG build 2049.
