Add-on version:			

Description

'Clip' geoprocess from gvSIG geoprocessing tools shouldn't allow use a cover clip layer which wasn't a polygon layer. It must be a polygon layer. In case of using a line or point layer, a warning message should appear.

El geoproceso 'Clip' de las herramientas de geoprocesamiento de gvSIG no debería permitir utilizar una capa de recorte que no sea de polígonos. En caso de utilizar una capa de recorte de puntos o líneas, debería aparecer un mensaje de aviso.
