Keywords:	Add-on resolve build:
Has patch: No	

Description

1. Load the attached images in gvSIG (both are reclassified and only have 1 or 0 values)
2. Open the raster calculator
3. Use the * operator

The resulting layer should have 1 or 0 values but it doesn't.

This only happens in Windows Vista.

History

#1 - 01/15/2014 12:20 PM - Álvaro Anguix

- Project changed from Application: gvSIG desktop to | gvSIG desktop 1

- Category deleted (Raster)
