Description

I installed gvSIG 2.0 2047 with CRS basic proj4j.

1. Run gvSIG.
2. Open a view.
3. Load a WMTS layer (I tested <http://maps.opengeo.org/geowebcache/service/wmts>).
4. The layer is added to the ToC but the tiles are not properly loaded.

I attached the log file and a screenshot.

History

#1 - 07/02/2012 02:12 PM - Ignacio Brodín

- Status changed from New to Awaiting response

I cannot see the log file and screenshot, but I think that the problem is the same that the 799. Please check it

<https://devel.gvsig.org/redmine/issues/799>

#2 - 07/02/2012 02:29 PM - Manuel Madrid

- Status changed from Awaiting response to Closed

I can confirm the problem is the same that in #799. Closed.
