Description

1. Ir a preferencias > Tile Cache
 2. Comprobar el valor actual del parámetro tamaño de tesela.
 3. Establecer un tamaño de tesela de por ejemplo 1024.
 4. Aceptar.
 5. Volver a preferencias > Tile Cache.
- En vez de mostrar 1024 muestra el valor que tenía antes.

You can not change to 4 digits tile size in the gvSIG build 2051.

- 1.- Open gvSIG
- 2.- Click in preferences
- 3.- Select Tile Cache
- 4.- Change size Tile (1024)
- 5.- Click Ok
- 6.- Click preferences (you can check that tile size is default option isn't 1024). If you close gvSIG to apply changes (tile size=1024) when you reopen gvSIG/preferences/Tile Cache, check that tile size is default option isn't 1024.
