- File libFMap_patch_bug_776_labelling_dgn.txt added

I have revised this bug.

It's worst than it seems, because affect also to DGN files (text files).

I attach a DGN to test (the texts are always centered and this is bad because dgn from IGN will not render well).

I solved the problem, and also the advance labelling with background symbols. The patch seems safe, and I will vote +1 to commit.

Please, test the change, and let me know if you want me to commit.
