Description

Al ir a añadir una tabla nueva en formato CSV me he dado cuenta que los drivers que salen son los de archivos vectoriales (shp, dxf, dgn), con lo que no se puede cargar (debería aparecer CSV y DBF al menos).
Además de que en Tablas no tienen sentido estos drivers de cartografía vectorial.

History

#1 - 09/24/2012 02:30 PM - María Maluenda

- Target version set to 2.0.0-rc1

Tested in the gvSIG build 2053. Not appears the option to add .csv file. DBF file appears.

#2 - 10/22/2012 07:00 PM - Manuel Madrid

- Status changed from New to Fixed

#3 - 10/22/2012 07:04 PM - Manuel Madrid

- Status changed from Fixed to Closed

#4 - 11/06/2012 03:09 PM - Manuel Madrid

- Subject changed from Drivers de tablas no están to No se filtran tipos de fichero no válidos al cargar tablas
- Category set to Document table
- Status changed from Closed to New
- Priority changed from Normal to High

No hay driver de csv en gvSIG 2.0 pero no deberían aparecer ficheros que no pueden cargarse.

#5 - 11/19/2012 03:56 PM - Juan Lucas Domínguez

- Status changed from New to Fixed
- Assignee set to Juan Lucas Domínguez

Improved behavior when loading geometry data sources as table.

If the params are unable to fix themselves (using the validate() method) then they are rejected. For example, the SHP parameters can be valid if they provide a default value for CRS in their own description.

gvsig-desktop:r39279

File types that cannot be added as tables will be shown in a dialog.

#6 - 11/21/2012 08:48 AM - Juan Lucas Domínguez

Preventing repeated strings in warning message.

gvsig-desktop:r39284

Test: File types that cannot be added as tables will be shown in a dialog.

#7 - 12/17/2012 01:11 PM - Abenchara Socorro

ESP: Testeado en el build 2061 RC2

Cuando abres una tabla, en el diálogo sale la opción de abrir archivo DBF y "todos los soportados". Con ninguna de las dos opciones puedo abrir una tabla en format CSV

Debería haber una opción para dicho formato o que pudiese abrirse con la opción de "todos los soportados"

ENG: Tested in build 2061 RC2

When you open a table, in the dialogue exists the option open DBF file and "all supported". I can't open a CSV table using that options.

There should be an option for that format or could be opened with the option "all supported"

#8 - 12/17/2012 01:14 PM - Abenchara Socorro

- Status changed from Fixed to New
- Target version deleted (2.0.0-rc1)

Sorry, please read the previous comments
