History

#1 - 07/11/2012 04:14 PM - Manuel Madrid

- File *gvSIG_export_to_DB.log* added

#2 - 07/12/2012 02:42 PM - Juan Lucas Domínguez

- Status changed from *New* to *Fixed*

gvSIG-desktop:r38557

Fixed dependency in config.xml and other small improvements.

Tested with PostgreSQL/PostGIS only and polygon layer only (but the initial error message does not happen even if the user intends to export to MySQL)

#3 - 08/22/2012 12:07 PM - María Maluenda

- Status changed from *Fixed* to *Closed*

Closed in the gvSIG build 2051
