Description

Open gvSIG
Create View
Add layer-->geodata/vector/SHP2D/carrilbici
In ToC select right button menu on layer selected
Start edition
In ToC select right button menu on layer selected
Select Editing properties and activate the snapping: 'Intersection point' in others.
Layer is in edition
Select line
And Add/Draw lines
An error appears to draw the second point of line
Attached .log

Abrir gvSIG
Crear una Vista
Añadir capa -> geodata/vector/SHP2D/carrilbici
En ToC botón derecho sobre la capa
Comenzar Edición
En ToC botón derecho sobre la capa
Seleccionar Propiedades de Edición y activar el snapping: Intersección.
Seleccionar la herramienta de línea
Añadir/ Dibujar una línea en la capa
Aparece un error al insertar el segundo punto de la línea
Adjunto .log

History

#1 - 07/30/2012 09:44 AM - María Maluenda

The same happens if you add a new arc, polyline or spline. But if you get separated from the geometries of the layer, where I am adding new items, not displayed the error.

#2 - 10/30/2012 06:58 PM - Manuel Madrid

- Priority changed from Normal to Urgent

- Target version set to 2.0.0-rc1

#3 - 11/03/2012 06:45 PM - Juan Lucas Domínguez

- Status changed from New to Fixed

- Assignee set to Juan Lucas Domínguez

I cannot reproduce this bug. It is probably fixed after previous bugfixes. Please try again in BN 2057.

#4 - 11/13/2012 10:36 AM - María Maluenda

- Status changed from Fixed to Closed

Closed in the gvSIG build 2057
